"and oblige the offender to wear, for any time not account to the part with the word "thet".

All of which were appropriately referred. THE PUGITIVE SLAVE LAW ----- EXTINCTION OF SE Mr. WALKER presented a petition of citizens

laid on the table.

After the transaction of some further business, Mr SEWARD presented four petitions of citizens of New York, praying for the repeal of the fugitive slave law, and another of citizens of the same State, praying the adoption of certain measures for "the extinction of slavery."

Mr. S. moved that the petitions be referred to the Committee on the Judiciary.

Mr. MASON said he should not interfere with the reference the Senator proposed.

Mr. NORRIS asked for a division of the question on referring them; and subsequently moved that they lie on the table.

Mr. HALE said he held in his hand a petition of William Sloans, and others, praying the repeal of the fugitive slave law. INDEMNITY FOR SPANISH LOBBES IN FLORIDA.

Mr. MALLORY submitted the following res:

Resolved, That the Committee on Foreign Re lations be instructed to enquire into the propriety of authorizing the President of the United States to have investigations made whether any Spanish subjects, not cit.zens of the United States, have subjects, not cit.zens of the United States, have sustained damage, by loss of property or otherwise, in consequence of public outbreak or violence in the State of Florida, growing out of the late Cuba expedition: and into the propriety of authorizing the President to make prompt indemnity to the Spanish government for such Spanish subjects, for said damage.

On motion of Mr. HUNTER, the bill from the House, making appropriations to supply deficienties for the present fiscal year, was taken up and referred to the Committee on Finance.

THE "ARMISTAD."

Mr. MASON, from the Committee on Foreign Relations, reported a bill to indemnify the master.

Mr. MASON, from the Committee on Foreign Relations, reported a bill to indemnify the master and owners of the Spanish schooner Armistad, and her cargo, and subsequently moved that it be made the special order of the day for Tuesday,

March 6th.

He said this was a matter of great interest to the Spenish government, and he submitted to the Senate that there were circumstances connected with the recent affairs with Spain, which renuliarly proper to consider the subject

at an early day.

Some further debate ensued, when the motion to fix a day for the consideration of the bill wa God thetyrant's cause confound!

Messrs. Hunten, Gwin and Hale spoke upor the bill, after which it was postponed until to

At present, there was no way to enforce decipline on ship board, except through a coun-martial. He believed that flogging in the navy had been too hastily abolished, and that there was a disposition to force these subjects through the House without sufficient consideration. He was in favor of a well-considered law. Mr. VENABLE, of North Carolina, advocated the bill and supported the pension clause. He would vote for 160 acres of land for the poor old sailor, who has served his country faithfully for twenty years, as soon as he would for the soldier. The man who had braved storms in defence of his country, should receive his sympathy. Why should not the public lands be given to the sailor as well as for railroads? MEMORIAL.

To the Senate and House of Representatives of the United States in Congress ossembled: The memorial of the undersigned, respectfully represents that they are entitled to Bounty Land, under the act of 28th of September, 1850, that they are informed and believe that the unlocated warrants are worth and believe that the unlocated warrants are worth more to them than the patented lands would be, that they do not expect or desire to reside on the land thus granted; that if patented to them, the expense of agencies and taxes will be an annual charge, reducing the value of the grant, which they could avoid if permitted to self the warrant Your memorialists further represent that the law by preventing the sale of the warrants, assume that the officers and volunteers entitled to bounty lands, are not competent to act for themselves, whereas many of them are among the most intelligent and respectable citizens of the States. They therefore respectfully ask that the act aforesaid may be so modified as to make the warrants for bounty lands assignable, and they will ever COLONIZATION ROOMS,

information, that we challenge your confidence and solicit your support and patronage.

We have fixed upon the 15th of each month as the day for the publication of our paper, so as to afford time for obtaining from the departments all the orders, notices and changes issued, or made by them during the preceding month. Tables of Post Crices, and compilations of the Laws and Regulations, are issued by the Post Office Department only once in two or three years. It is a matter of inconvenience and complaint, for which hitherto there has been no remedy, that in one C. & E. L. K E R R I S O N & CO. hitherto there has been no remedy, that in one month from the time of these issues, there are of and offices in operation which are not in the tables At this time there are perhaps aver three thousand offices of the two descriptions. In like manner laws have been passed and regulations established since the issue of the last volume of regulations, of which many postmasters and bthera are wholly ignorant. We propose to prevent, for the present, any increase of the evil of either kind, and from the time another issue shall be made, our paper will furnish the additions, corrections, and modifications, made in each month, and by being filed and preserved, will afford to postmasters full and exact information upon both subjects, up to and for time being. These advantages alone and independently of all
